Education

D. Y. Patil College of Engineering and Technology
Computer Science and Engineering

Bachelor of Technology (B.Tech) • 78%
Kolhapur, Maharashtra • 2023 - 2027

Summary

Final-year Computer Science Engineering student with hands-on experience in Android development using Kotlin and Jetpack Compose, along with backend development using Node.js, Express.js, and MongoDB. Developed full-stack mobile applications with secure authentication, REST APIs, and real-time features. Passionate about building scalable software and continuously improving through practical projects and problem solving.

Skills

🔗 Languages: Java • Kotlin • JavaScript • SQL

Java, Kotlin

🔗 Mobile: Jetpack Compose • Android Studio • Material Design 3 • MVVM • Navigation Compose

🔗 Backend: Node.js • Express.js • REST APIs • JWT Authentication

🔗 Database: MongoDB • Mongoose

🔗 Tools: Git • GitHub • Postman

🔗 Core: Data Structures & Algorithms • OOP

Projects

Smart Mechanic – AI-Powered Vehicle Service Platform

Jan 2026 – Present

- Developed a full-stack Android application using Kotlin, Jetpack Compose, Node.js, Express.js, and MongoDB.
- Designed secure JWT-based authentication with role-based access for customers and mechanics.
- Built RESTful APIs for booking management, service tracking, and profile management.
- Implemented real-time booking status updates and scalable MongoDB database architecture.
- Currently integrating AI-assisted vehicle issue diagnosis and intelligent mechanic assignment.

SAMVED – Smart Governance Complaint Management System

- Developed Android application for reporting and tracking civic complaints.
- Integrated GPS location and image upload for complaint registration.
- Designed REST APIs using Node.js and Express.js.
- Built responsive user interfaces using Jetpack Compose.

Experience

EduSkills | Google for Developers

January 2025 – March 2025

Android Developer Virtual Intern

- Completed a 10-week Android Development virtual internship.
- Built Android applications using Kotlin and Android Studio.
- Learned Android fundamentals, UI design, activity lifecycle, and app architecture.
- Gained hands-on experience in developing and testing Android applications.

EduSkills | AWS Academy

Generative AI Virtual Intern

- Completed a 10-week Generative AI virtual internship.
- Learned fundamentals of Generative AI, prompt engineering, and AI applications.
- Explored cloud-based AI services through AWS Academy curriculum.

Interests

🔗 Android Development

Kotlin, Jetpack Compose, MVVM

🔗 Backend Development

Node.js, Express.js, MongoDB

🔗 Problem Solving

Data Structures, Algorithms

🔗 System Design

🔗 Artificial Intelligence Applications
